– We update your quote hassle-free

**5-Star Service Guarantee**  
– Excellence at every step!

## Concept

"Kart Challenge" team building propels teams into a realm of creativity, where they **sculpt their unique karts** using a diverse range of materials.

Guided by a specific theme and with the objective of accomplishing three pivotal challenges, each team crafts their vehicle. **The process emphasizes time management, budgeting, and solution-driven efforts.**

Following the creation phase, teams can hop into their karts. **An exhilarating race ensues, culminating in the crowning of the champion team.**

**1**

### 3 Challenges

"The Kart Challenge" kicks off with an **engaging team briefing**, introducing **three distinct challenges**. To ace these challenges, specific functionalities must be integrated into your kart. And with that, it's time to transition to the next phase... **Build your kart!**

**2**

### Build your kart

Unleashing **creativity and applying solution-driven approaches** are key to designing a kart that's both **functional and visually appealing**. Team dynamics decide the division of roles, necessitating swift and structured communication. Do you commence with a prototype or dive straight into the final build? Experiment, construct, and beautify - **but above all, have fun!**

**3**

### Race to victory

3, 2, 1, GO! With you as the **driver of your kart**, you will race your way to victory. Throughout the race you will complete the three different challenges and earn team points. **Will you win the trophy?**

## Budget control

Each team starts with a budget of 1,000 euros. With a limited budget, you get to work shaping your kart. Do you invest time to get extra budget or try to make thoughtful purchases in the shop?

## Brainstorm & build

Collaborate with your teammates to evaluate all potential routes, making pivotal decisions along the way. **Delegate tasks, decide on which ideas to pursue, and ensure everyone is aligned with the collective vision.**

## Time Management

**How much time do you have left before the race commences?** Have you ensured all kart components are functioning for the impending tasks? Trial your kart ahead of the race to allow room for any necessary tweaks. **Remember, every second counts!**

## Unique game design

Beyond the sheer enjoyment of our activities, they are crafted to **address real-world challenges encountered in professional settings.** By emphasizing diverse facets in each activity, **we ensure that every team member can spotlight their unique strengths.** Through our team-building sessions, we set ourselves apart and truly make a difference.

## Gift for all players!

A tasty little gift shouldn't be missing! As a sweet extra, we treat all players to delicious candy – a small surprise\* to end the teambuilding on a high note. 😊

**FREE with every teambuilding!**

*\*Want to make it even more personal? Feel free to provide your own goodies! We'll happily put them in the box before the game starts. Just make sure your goodie fits within these dimensions: 36 x 21 x 20 cm.*

# Practical information

## Up to 72 players per session

The "Kart Challenge" is played with up to 72 people. **Up to 12 teams compete against each other in this creative competition.** Are you with a larger group? Then we can also schedule several sessions one after the other.

## Teams consist of a maximum of 6 persons

For an optimal gameplay experience, each team should have no more than 6 members. This structure ensures that each participant can lean into their unique strengths and actively participate throughout.

## Game language: Dutch, English, French

The game itself is largely language insensitive. It can therefore be used for any language group. However, are there texts that need to be read? Then these are provided in 3 languages: Dutch, English and French.

## Language game guidance: Dutch or English (French on request)

Our facilitators are fluent in both Dutch and English. If you'd prefer the game's instructions in French, just let us know beforehand. We'll ensure our French-speaking guides are present to make your experience seamless.

*In short*

# Timing

Allocate a time span of 2 to 2.5 hours for the activity, contingent on the participant count.

## Arrival & setup

We'll arrive approximately 1 hour prior to the activity's kickoff. If the designated area isn't available 60 minutes ahead of time, please coordinate with us to make necessary adjustments.

## Game introduction

Our game facilitators ignite the enthusiasm by outlining the tasks ahead. During this phase, we'll also segment participants into teams, either through a random process or based on your preferences.

## Build your kart

Using cardboard, tape, and scissors, teams will dive into the creative challenge of crafting their unique karts. The objective? Engineer a design robust and efficient enough to meet the game's tasks.

## The race

Once the karts are ready, the adrenaline surges with a thrilling race. Teams will navigate their homemade karts through a dynamic course filled with objectives, promising excitement and a hearty dose of laughter.

## Debrief

Post-race, it's often buzzing with chatter and shared experiences. Allocate some free time here, allowing participants to unwind, discuss their moments, and foster deeper connections.

## Cleaning up

While your thrilling adventure concludes, our work continues. We'll need approximately another hour post-event to tidy up, ensuring the space is as we found it. The cleanup duration might vary based on the number of teams.

# Where to play

The Kart Challenge offers flexibility, being suitable for both indoor and outdoor setups\*. For the best experience, **choose a paved, clean surface** – venues with gravel roads or cobblestones might not be ideal.

The Kart Challenge requires some free space.

This table shows the needed space based on the number of teams:

Number of teams	Area	Number of teams	Area
1	84 m <sup>2</sup>	7	156 m <sup>2</sup>
2	96 m <sup>2</sup>	8	168 m <sup>2</sup>
3	108 m <sup>2</sup>	9	180 m <sup>2</sup>
4	120 m <sup>2</sup>	10	192 m <sup>2</sup>
5	132 m <sup>2</sup>	11	204 m <sup>2</sup>
6	144 m <sup>2</sup>	12	216 m <sup>2</sup>

No worries, we can easily adapt to the space you have.

## Practical information:

- > All spaces should be available **1h beforehand and 1h afterwards**
- > **Provide parking close to the play area** for loading and unloading
- > Provide a play area on the **ground floor**

### **\*Want to play outside?**

Want to feel the breeze as you race? We're on board with that! Whether you're thinking of building the karts indoors and racing them outside, or hosting the entire activity under the open sky, we're game. Just a heads-up – rain could be a dampener. If there's a forecast for rain, it's wise to have a Plan B.
